## What does it mean to collaborate?

Collaborate:

: to work with another person or group in order to achieve or do something

: to work jointly with others or together especially in an intellectual endeavor

“Alone we can do so little; together we can do so much” — Helen Keller

Individually, we are one drop. Together, we are an ocean." - Ryunosuke Satoro

"Gettin' good players is easy. Gettin' 'em to play together is the hard part." - Casey Stengel

Fact: People do  
business with people  
they know, like, or trust.

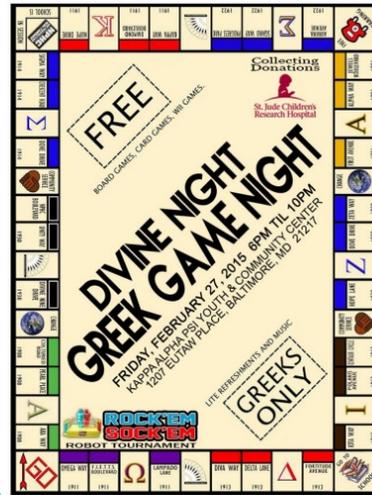

The one great thing about a continuing collaboration is that they know you. And if you're really lucky, they really believe in you and think that your talent has some unending bounds to it.

Mark Ruffalo

## Getting to know you

Sponsor non-paying social events geared towards Council chapter members only

- You can learn more about a person in a social setting then at a dance/party/etc.
- By limiting attendees to member chapters you learn who are the Greeks in your area
- Engage the Presidents in separate gatherings to conduct best practice sessions and get buy-in on new initiatives.
